

QASHQAI

Taking QASHQAI to the next level

In 2007, Qashqai invented the crossover, and people around the world fell in love with its blend of hatchback compactness and SUV practicality. It was quite a trend-setter, with crossovers fast becoming a favourite all over the world.

And now, we're honoured to present the all-new Nissan Qashqai. Bolder and even better equipped, All-new Qashqai is also safer thanks to new safety technologies and driving aids aimed at maximizing security for everyone.

Images and descriptions shown are for guidance purpose. In some instances photos are of non-local specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.

A new form of expression

Qashqai brings a new vision to crossover design with muscular proportions, a vibrant palette including two-tone colors, brilliant LED lighting, low profile aluminium roof rails, and imposing 19-inch alloy wheels.

Your space has never felt more personal

Relax in the ergonomically designed seats with optimised lumbar support. Enjoy premium materials, quality finishes throughout, and massage seats* for both driver and passenger. New Qashqai isn't just an improvement. It's a revelation.

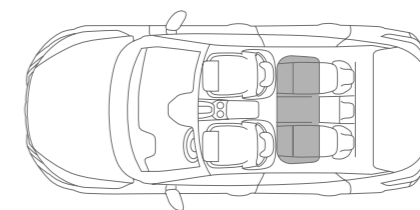

Nappa leather seats with driver & front massage functionality-available on Acenta Plus

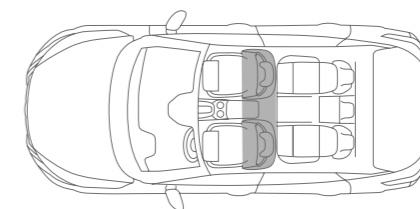

Room for everyone. And everything.

The all-new Nissan Qashqai combines a spacious interior with a compact, city-friendly exterior for easy manoeuvrability. Passengers sit in comfort with a bigger cabin with room among the best in its segment, easy access and easier child seat fitment thanks to 90° rear door opening, plus thoughtful small touches like two USB ports for rear passengers. Add generous boot space and it's clear: you can bring your family or friends to any destination in comfort and enhanced spaciousness.

Unexpected cargo capacity

Up to 1593L of space means all-new Nissan Qashqai is ready to carry everything you need. Equipped with a wipeable luggage board and multiple boot configurations for maximum flexibility whatever your cargo.

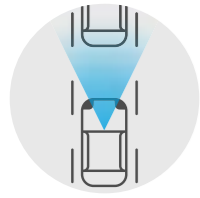

Safety at its heart

Every all-new Nissan Qashqai is equipped with advanced safety technologies designed to scan the road, keep everyone safe and give you maximum peace of mind.

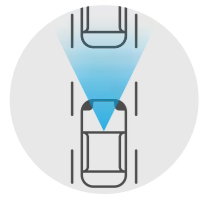

INTELLIGENT CRUISE CONTROL keeps your distance. It measures the distance from the vehicle ahead, controlling acceleration and deceleration to automatically maintain a suitable following distance within your set speed.

PREDICTIVE COLLISION WARNING keeps an eye up to two vehicles in front of you. When the system detects a sudden deceleration ahead, it gives you an audible and visual warning to slow down.

EMERGENCY LANE KEEPING A full suite of technologies to help you avoid unintentional lane departure. Keeps you centered in the lane either by steering wheel action or braking in an emergency situation.

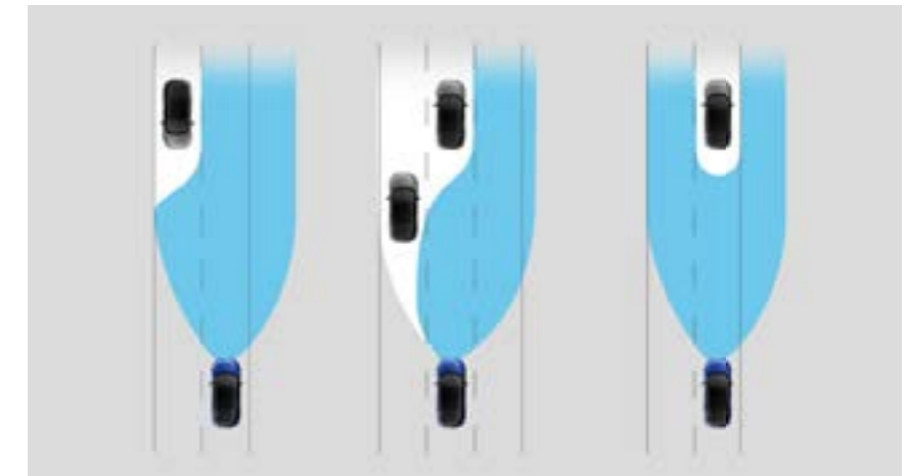

FORWARD EMERGENCY BRAKE Monitors the surrounding area in front of the car for vehicles and pedestrians, helping avoid or reduce damage caused by collisions.

Shine a light on safety

All-new Nissan Qashqai is the first car in its class with Adaptive Driving Beam technology. It splits the high beam into 12 individual segments, automatically turning off segments which could dazzle oncoming drivers. Maximum visibility for you, maximum safety for those around you.

Tight spot? No problem

If you hate parking, you'll love the all-new Nissan Qashqai. The new digital high resolution Around View Monitor* gives you a 360° view of your car, with selectable focus on the front, rear and kerbside view to help you park with confidence and control. Add 4 high resolution cameras for a clearer view of surroundings at low speed and in parking situation for a more secure feeling.

Rear camera -

ProPILOT with NAVI-Link

All-New Nissan Qashqai includes the latest version of ProPILOT, ensuring comfortable, relaxed driving on major roads. New software helps smooth your drive and keep you safe in your lane, maintaining an ideal distance from the vehicle in front, whatever the gradient. The NAVI-Link feature connects to the Qashqai's on-board navigation system to anticipate speed limit changes, bends, off ramps and more, adjusting your speed smoothly and gently to keep you in control. It can even initiate an emergency stop and start in traffic, helping you and your passengers stay safe and comfortable even in demanding driving conditions.

Smarter on the inside

Structural and engine optimisation have been a key part of the development of the all-new Nissan Qashqai to deliver great driving performance as well as fuel efficiency. The new platform delivers advanced agility and comfort. The stiffer structure offers improved dynamic performance and security, while the extensive use of aluminum body panels reduces the weight for lower fuel consumption.

ALUMINIUM DOOR PANELS AND BONNET
Lighter aluminium panels in the door and bonnet help reduce weight and therefore CO₂ emissions.

IMPROVED SUSPENSION
As well as improved standard suspension, all-new Nissan Qashqai is available with Multi-Link suspension* for even more comfort and sportier, more agile driving.
